Airstrikes pummel Taliban in south; insurgents gain in north

KABUL: The Afghan air force carried out more airstrikes against Taliban positions in southern Afghanistan on Thursday, as the insurgent force made additional gains in the country's north. A defense ministry statement said air strikes were carried out across the country, including in the southern Helmand province, where the provincial capital of Lashkar Gah is being fiercely contested. The Taliban control of nine of the city's 10 police districts. Residents in Lashkar Gah reported heavy bombing near the government radio and television station, which is under Taliban control. Several wedding halls and a guesthouse of the provincial governor's are all located near the radio and television station. In northern Afghanistan, the Taliban took control of most of the provincial capital of Sar-e-Pul, the head of its council, Mohammad Noor Rahmani said. In recent months, the group has gained control of dozens of districts across several provinces in the north. The UN Security Council, under the Presidency of India, will meet on Friday to discuss the worsening security situation in Afghanistan. The decision to hold the open UNSC briefing on Afghanistan comes just a day after Afghanistan Foreign Minister Mohammed Haneef Atmar spoke with External Affairs Minister S Jaishankar "to discuss convening an emergency UN Security Council Session on Afghanistan. UN Security Council will meet on Friday, 6th August, under Indian Presidency to discuss and take stock of the situation in Afghanistan," India's Permanent Representative to UN and Security Council President for the month of August Ambassador T S Tirumurti tweeted late on Wednesday. DELTA VARIANT NOW REPORTED IN 135 COUNTRIES

Global Covid cases could top 200 mn by next week: WHO

The cumulative number of cases reported globally is now nearly 197 mn and the number of deaths is 4.2 mn

UNITED NATIONS: The highly-transmissible Delta variant of COVID-19 has now been reported in 135 countries, according to the World Health Organization which said the cumulative number of coronavirus cases reported globally could exceed 200 million by next week. The COVID-19 Weekly Epidemiological Update dated August 3, released by WHO, said globally 132 countries have reported cases of the Beta variant and 81 countries of the Gamma variant. It said the cases of Alpha variant have been reported in 182 countries, territories or areas, while 135 countries have reported cases of the Delta variant, which was first identified in India. The global number of new cases has been increasing for more than a month, with over 4 million cases reported in the past week - July 26 to August 1, the update said. This increasing trend is largely attributed to substantial increases in the Eastern Mediterranean and the Western Pacific Regions which reported 37 per cent and 33 per cent increases respectively as compared to the previous week, while the South-East Asia Region reported a 9 per cent increase, it said. Overall, the number of deaths reported this week decreased by 8 per cent as compared to the previous week, with over 64,000 deaths reported. However, the Western Pacific and Eastern Mediterranean Regions showed a sharp increase in new deaths as compared to the previous week, reporting 48 per cent and 31

A nurse treats COVID-19 patient Cedric Daniels, 37, of Gonzales, La., at Our Lady of the Lake Regional Medical Centre in Baton Rouge

per cent increases, respectively. The highest numbers of new cases in the region were reported from India (283,923 new cases; 20.6 per cent increase), Indonesia (273,891 new cases; 100.1 new cases per 100,000; 5 per cent decrease), and Thailand (118,012 new cases; 169.1 new cases per 100,000; 26 per cent increase). Cases from India, Indonesia and Thailand accounted for 80 per cent of new cases being reported from the region. The highest numbers of new deaths were reported from Indonesia (12,444 new deaths; 4.5 new deaths per 100,000; 28 per cent increase), India (3,800 new deaths; less than one new death per 100,000; 45 per cent decrease), and Myanmar (2620 new deaths; 4.8 new deaths per 100,000; 24 per cent increase). Amid the growing cases of Delta variant and vaccine inequity, WHO called for a moratorium "on booster shots of the COVID-19 vaccine until at least the end of September, noting with concern the disparity in vaccination levels in low and high-income countries. WHO Director-General Tedros Adhanom Ghebreyesus said at a news conference on Wednesday that while high-income countries have now administered almost 100 doses for every 100 people, low-income countries have only been able to administer 1.5 doses for every 100 people, due to lack of supply. "We need an urgent reversal, from the majority of vaccines going to high-income countries, to the majority going to low-income countries, he said. Accordingly, WHO is calling for a moratorium on boosters until at least the end of September, to enable at least 10% of the population of every country to be vaccinated, the WHO chief said. AGENCIES

Israel launches airstrikes on Lebanon in response to rockets

TEL AVIV: Israel on Thursday escalated its response to rocket attacks the previous day from Lebanon by launching rare airstrikes on its northern neighbour, the army and Lebanese officials said. A statement from the Israeli military said jets struck the launch sites from which the rockets were fired, as well as an additional target used to attack Israel in the past. The military blamed the state of Lebanon for the shelling and warned against further attempts to harm Israeli civilians and Israel's sovereignty. The overnight airstrikes in southern Lebanon were a marked escalation at a politically sensitive time. Israel's new eight-party governing coalition is trying to keep peace under a fragile ceasefire that ended an 11-day war with Hamas' militant rulers in Gaza in May. Several incidents leading up to this week's rocket fire from Lebanon have focused attention on Israel's northern border. The United States swiftly condemned the attacks on Israel. Lebanon is mired in multiple crises, including a devastating economic and financial meltdown and a political deadlock that has left the country without a functional government for a full year. Lebanese President Michel Aoun said Israel's use of its air force to target Lebanese villages is the first of its kind since 2006 and indicated the presence of aggressive, escalatory intentions against Lebanon. AGENCIES

APPEAL FOR IDENTIFICATION

General public is hereby informed that one unidentified dead body of male namedly **Rohtash S/o Bhuri Singh** R/o: 243 Rainbasera Geeta Ghat Yamuna, Civil Lines, Delhi and Permanent Address: Village Bisana, PS-Chandpa, District-Hathras, U.P. Tokyo logs record 5,042 Coronavirus cases

TOKYO: Tokyo reported 5,042 new Coronavirus cases on Thursday, its most since the pandemic began as infections surge in the Japanese capital hosting the Olympics. Tokyo has been under a state of emergency since mid-July, and four other areas of the country have since been added. But the measures, basically shorter opening hours and a ban on alcohol for restaurants and bars, are increasingly ignored by the public, which has become tired of restrictions. We need to tackle the situation now that we have a stronger sense of urgency," Prime Minister Yoshihide Suga told reporters, referring to Tokyo exceeding 5,000 new daily cases for the first time. The infections are expanding at a pace we have never experienced before," Suga, who has been criticised for insisting on hosting the Olympics despite the Coronavirus's surge, says there is no evidence linking the increase in cases to the July 23-August 8 Games. He urged people to firmly stick to the emergency requests and stay at home despite summer vacations. AGENCIES
